

## A MALT SHOPPE

as i was wee younger  
so young and naïve  
my grandfather told me  
as i sat on his knee  
he told me  
son it's a hot one  
about a hundred and three  
say why don't we go to the malt shoppe?  
just you and me

i said well gramps that's a great idea man  
one real cold one  
why don't we get out of this blistering heat?  
let's go have some fun!  
why don't we go to the malt shoppe?  
why don't we go to the malt shoppe grandpa?  
why don't we go to the malt shoppe  
just you and me

we'll have a root beer! a malt!  
ice cream and pie! shakes with cherries right up to the sky!  
sugarcones! gumdrops! something to chew!  
we all know that eating ice cream  
well...it's something to do!

## A MIGHTY FINE DAY

Well I think today is going to be a mighty fine day the sun is out  
the clouds are gone  
I'm on my way...  
and if I have to play  
on this beautiful day  
I might as well say that's okay  
because I think today is going to be a mighty fine day

well let's go outside - let's fool around  
you want to stay inside? we won't make a sound!

you want to speed me up - just as fast as can be  
you want to stir me up - just like a cup of tea...

oh well I think today is going to be a mighty fine day

the sun is out  
the clouds are gone  
I'm on my way...

why don't you ask why - or if your temporary?  
I'll tell you yes - you have well you have to be

or if you want I'll say - maybe  
because I think today is going to be a mighty fine day!

## A NORMAL DAY

good morning! oh its so good to see you  
coffee? do you take that with sugar?  
i think it's going to be a creamy day  
fresh fruit? i picked it from my garden  
morn dew, i feel the air is brreathing

ahh yes! it's going to be a golden day  
oh look the birds are flying and the children playing  
Mrs. Olson's smiling  
can you smell the morning dew?  
and look the flowers blooming and the neighbors raking  
the planes are zooming look at the sky it's so blue

i feel...i feel the sun warmth shining  
fun day! i think i might go jogging  
ahh yes! It's going to be one of those days  
don't look, hide! well that's my neighbor  
damn it! I guess that they both saw you  
it's ok they never met Margaret anyway  
i feel... i feel my hair is growing  
i feel... i feel my head is spinning  
i think its going to be a normal day

A PILOT WITHOUT A CLUE  
(HE WAS SUPPOSED TO BE IN CONTROL)

you overlooked the runway  
a pilot without a clue  
you overlook everyone  
and everyone's point of view

you said you had a biscuit  
crumbling on your lap  
you've got so many excuses  
excuses is where you're at

but still you didn't put the wheels down  
concerned more with your food  
you should've told your partner  
not to get his shoes

and still you blame no one  
a fluke within the air  
should've put the comb down  
stop messin with your hair

you wanted some more butter  
jelly-ing down your roll  
you couldn't hear the co-pilot mutter  
"you've lost all control"

but now it's time for you to die  
as you cart plainly see  
finally someone has reduced your high flying overseas

i said my prayers to heaven  
that's where i'm going to be  
even though my body will demolish in the sea  
thanks alot we're all dead  
and it's because of you  
thanks alot there captain  
a pilot without a clue

## A PLAIN TRIP

a beverage sir?  
yes! why thank you  
looking out the window  
circle there    squares everywhere  
round dots    tiny spots    round dots  
we're in the air!  
looking out the window  
down to the ground  
ears are plugged up  
can't hear a sound

i see    what do you see?  
i see a lot over there  
i see    what do you see?  
i see rain clouds everywhere  
swimming pools tiny schools - move! let me stare  
tiny cars here comes the bar let me stare  
hey! where are we going?  
were going to mars we're going to mars we're going to mars!  
another cocktail sir?  
yes! why thank you very much!  
staring out the window  
still in the air    were almost there  
buzz caught    beer on draught    buzz caught  
still in the air  
staring out the window  
up above the clouds  
over the pacific  
we've just touched ground!

## A WAITRESS

she neglects our water  
she neglects us  
she neglects everyone o ya  
she neglects us  
she neglects me  
she neglects everyone o ya  
you better ask her while she's standing right there  
you might never see her again  
perhaps you ask her if she's feeling ok  
o what she say? o she's ok o ya  
she neglects everyone o ya

perhaps there's a problem  
or a misfortunate mishap  
perhaps to insure promptness  
a smile is where its at

she relates like  
just like a brick wall  
she exercises just a little bit  
she relates like as if you're not here  
if you don't like your job why don't you quit?  
because I don't need this  
and I don't want this  
giving me all of your biscuits  
and i won't take this  
and now i'm going to leave  
we have come here just for food

## ARMS AKIMBO

arms akimbo staring at me  
shaking like a leaf fallin from a tree  
body postures curling, curling me up  
when you stare at me i feel like giving up

i want to come down on you  
like a waterfall below  
to where you can't get through  
not like you're swimming in the sea  
i want to come down on you  
like pressure when it blows  
to where you won't get to  
enjoy life

At ED'S

I work all day long  
To work at someone's shop  
I'm at the shop, and I'm here working – at Ed's

I like to sing  
I like to dance  
And I like to do the bee bop  
But at the shop – with Ed

Ed – he's the boss  
Oh what a guy  
Superman  
A real hero  
A movie star  
A humdinger  
With a Weber heart that ticks...

It tick me so loud I hear my heartbeat pound  
It tick me so loud I hear my heartbeat pound

## BURNT

Where is my sunshine girl now?  
When I am trapped in this flat dry place  
the air sweats decaying men and I see her on my fridge  
everyday I see her and wonder what she thinks

Where is my crystal bird girl who paints rainbow days?  
I know she is very far away yet I feel her inside me when I breathe...  
she hangs from the wooden beam  
on my ceiling in front of my window  
a glass blue lilac

Where is my sunshine girl now?  
When I am ripped and I  
lay on the bathroom tile in a wet heap  
time has made me so thin  
really nothing but a face  
I can move through cracks and hide in holes where my lover's will never find me

my pink butterfly girl can do that too  
I wonder if her amber curls ever tangle  
but I never hear her now my high earth girl

where is my chiseled featured Swan girl with long long legs now? When I am locked in my tower of  
bones and emeralds she's probably wondering why water is blue

and how the fuck boats float

Where is My Sunshine Girl?  
I miss her so  
with all I am  
I miss her so  
I see her on my fridge

## CHEMICAL DEPENDENCY

Chemical Dependency  
Chemical Dependency  
Chemical Dependency  
Chemical Dependency

I think it's got more lives than me  
Some don't know what its like to be  
Free from my high and my chemical dependency  
,

You see it happens to the kid down the street  
To get some cash he'll do anything  
That freaky guy  
He's always high  
That freaky kind of guy

CODA (As Time Goes By)

As time goes by and I see lines on my forehead  
our precious frail lives frighten me  
I wake up crying  
begging God

It was but yesterday  
we met in a dream  
I touched the glory of your soul  
and  
sang to you  
in your aloneness

When now we meet  
to dance  
I see your torn heart rip deeper  
through your tiny precious body

I treasure every breath you take  
and fall  
trembling to my knees  
reaching for your face  
begging God  
to let us build our tallest Castle  
next time we dream

DANNY SEIDEN

I was sitting there with the neon light on the top of my head and a foghorn for Jacket

The siren in my mouth screams

Thanks for the wheaties can I borrow a dime

I know I look a little pale but I feel just fine

I'm going downtown to shoot the breeze all day going to sit around town and play and play

I was just sitting here with my head on fire how come all of my friends are always tired

I'm not so sure just what I'm doin  
but I look real nice in my new costume

I may invisible man you can't see me I know you can

The chains have turn my neck bright green the stories I'm in are all obscene

I'm invisible but can be seen  
Everyone wishes I was just a dream

Hello mom sorry I'm late his name is Ivan he's my date

Well hello there Ivan what's up tonight oh we're going to dance on a building with the big flashlight

He's the invisible man

## HOLE IN THE WALL

I'm in the rock room  
and it's getting late  
I wish someone would drop me a line

I lost my spectacles and now I can't see  
I wish someone would drop on by

I'm in the basement and I'm getting tired  
I wish someone would put an end to this

I'm working even harder although some things have gone amiss  
Starvation for an hour at least

But I'm doing alright now  
Doing alright yeah  
Doing alright yeah  
Doing alright babe  
doing alright

Listening to the hole in the wall la la

I've been waiting for so long  
Pack your bags today  
Now we're goin on our way  
to South America

We will make our own love song  
Soon we're on our way  
To South America

Welcome to Rio, Rio de Janeiro  
The land of sunshine with beaches and dance  
We've landed in Rio, Rio de Janeiro  
The place where lovers go for romance

So don't be late  
You know we have a dancing date  
Underneath the moonbeams  
With the girl of your dreams  
And so we do the tango

I have learned to love it here in Montevideo  
Quinto seems like a place that I could call home  
As a young girl who would believe?  
I'd find you here alone with me?  
Heaven sent you from above  
Wake me up I must be dreamin

## HOW DOES SHE DO IT SO QUICKLY

How does she do it so quickly?  
How does she do it so fast?  
While weeding her garden  
In five minutes flat  
She's feeding the neighborhood kids...

How does she do it?  
It's beyond me  
How does she do it so quickly?

How does she do it so clean  
How does she do it so fast  
While scrubbing the dishes  
She's feeding the cat  
and watching the t.v. show biz

How does she do it?  
It's beyond me  
How does she do it so quickly?

## HUMAN ZOO

and now they're starting to rip you...

there seems to be a fight  
a fight a fight a fight!  
a fight between two tigers for a bite  
i think you better run

run for your life and stay out of sight  
what next  
what you gonna do'?  
remember keep on runnin  
stayin away from that that zoo

## IT DOESN'T MIND

Can I touch your leaf?

I won't crinkle it, I just want to see if it's really real

Can I smell your breath, I can take it, I just want to check your breath pressure

Can I see your hair? I won't finger it I just want to feel if its really soft

You don't mind, do you?

You don't mind

Can I lick inside your mouth?

I won't tickle it, I just want to see how you taste

Can I check your hand?

I won't hurt it, I just want to see how old you are

Can I, can I, can I?

I can't help it, I'm just trying to figure out who I am

You don't mind do you?

You never seem to really mind

Never mind

## ITSY BITSY PIECE OF LIGHT

My feet hammer into the ground  
As I stalk under the veil of night  
I float on with the speed of sound  
A fragment of tiny light  
A segment of tiny light  
An itsy bitsy piece of light

I crash into the forest boughs  
I walk into the grey of dawn  
A path unseen in my footing ploughs  
Through the grass that starts to talk  
By the Trees which start to talk  
This is a most unusual walk

I come upon a swimming brook  
It did not stop to sneak a look  
They step aside for running water  
And slow the glide of steady feet  
Hop along the street feet

## I WORK WITH MY LIVE-IN GIRLFRIEND

she's going to tell me what to do  
and she's going to tell me what to say

and she's going to tell me what to say  
i really have to get out of this mess  
i think perhaps she's ruined my day  
each and every day

o she's going to try and make me feel  
and she's going to try and be my shrink  
she's going to have me so washed up  
i'll be living in the kitchen sink  
and she's going to help me through the day  
she already helps me through the night  
it really doesn't matter what i say  
she knows i need her everyday  
each and every day

she's going to show me how to groove  
and she's going to be my princess queen  
i already know how to move

she's going to wake up in the morning  
and she's going to smile until she grins

## JUST A MINUTE

I kinda hoped you liked my garden  
I worked on it all day  
Do you like my selection of flowers?  
Can you tell they're rearranged?  
Do you like the purple in the back row?  
How bout those pink pansies?  
I like the ones with the blue in the middle  
Come over here and look at these

Can you believe there are people starving?  
All they need is rain  
Can you believe I raked my garden into the street today?

I kinda hoped you'd stop to ponder  
I kinda hoped you'd chit chat  
I kinda hoped you'd stop and wonder  
I kinda thought you missed that

I kinda hoped you liked my garden  
I worked on it all day  
Do you like my selection of flowers?  
Can you tell they're rearranged?

## LEAVES ON TREES

The leaves on the trees they turned brown today you never know what they will do you might get up sit

Hey look Daisy Jane she's got a rose machine it's the new thing calling me my baby got up set up right  
now she's smiling you never know how happy you can be

Will soon the be started buzzing  
and our minds started humming  
and the sky it turned all clear blue

You might get up

and get a little smiling in

you never know  
what you can do

let your conscience be your guide  
let your mind rastify  
let your life be your soul

let your conscience keep control  
and a peace of mind you'll know

the world of living  
we must change  
start loving your brother  
so we can rearrange  
the ways of humanity

## LION HUNT

LORD HAVE MERCY

Lord have mercy

The flower fairies were miserable  
they longed to roam the galaxies  
one evening they gathered moonshine and called upon Mother Earth

She was sympathetic with them  
knowing what its like to be trapped  
all their wings were rubbed with enough witch' s fat for one full cycle of the moon...

Tabitha went soaring over Venus  
Felicia went straight to the Sun  
Baby Priscilla flew to Tralthalmador to smoke liquid children  
Nathaniel skipped over the heavens...

When the moon finished her cycle all the fairies came home  
they were so grateful for their Adventures each gave a part of themselves to earth  
She kept their gift...

Flowers growing on her belly

ME AND MY WIFE (WE'RE BACK TOGETHER AGAIN)

Push me back

Sometimes I've got to be put back in my place

A self crucifixion cuz I'm living in outer space

Receive my heart from my forehead

Lift my hair from my eyes

Hold me close dear darling

Tonight I am your surprise

Tonight I am your surprise

Tonight I am your surprise

## MIDWESTERN POP

How come you never wanna play in my town

Those Hollywood cats they're way to cool

How come you never wanna play with my son

Those high grade drive me nuts

Some times they stare at me and my boy

Its no fair it seems to really drive me crazy

Someway somewhere somehow I'm gonna get them

Those urban boys they're way too cool

Last night when I visited the city

There were urban beggar buyers everywhere

An atmospheric cloud that's not too pretty

People stealing shopping people dare

And boy o boy they're so fast

That Hollywood lover tone

Influences our lifestyle

And my o my they're so fast

Their fashion – it costs too much

## MISS SHELLEY

Who are you in love with

What's the subject Miss Shelly  
and what's the propositio  
to look at our analysis and decide  
whether we think Miss Shelly is now on your side...

What assignment is Shelly  
and what am I supposed to do?  
Find out if our observation is true  
that we think Miss Shelly is into you like glue

What's the problem? Oh nothing  
what am I supposed to do  
We just want to know if it's true  
that you love Miss Shelly that lady next to you

I do he do I really really do  
I do he do and you are  
are you in love with your mate

Are you in love with the present situation  
are you in love with your date  
Hey I'm in the same situation

The positive side of love is present at hand  
people share it feel it and make it happen  
people care it and feel it  
and then it happens

No longer in love with your mate  
No longer in love with the present situation  
no longer in love with one taste  
Hey looks like a Permanent Vacation

Ooh ooh ooh ooh ooh oo-awoo mushrooms (x2)

o won't you join me?

Ooh ooh ooh ooh ooh oo-awoo mushrooms (x2)

Oh last night - what a trip! I don't know what I was on

MY WIFE GOES TO NIGHT SCHOOL

Oh where the hell have you been I've been waiting here for you  
The damn car is three blocks away  
I've been waiting here for you

You say one thing and do another  
That really bothers me  
Do you have any idea  
I've been waiting here for you

Where the hell have you been?  
I've been waiting for you  
Precious time has been wasted  
All because of you  
I'm still waiting outside here  
Knowing you've forgotten  
I can't wait much longer  
All because....

NAAN

Would you like smoking or Naan?

Naan.....

Tenderly trampling on what was once soft

The balls of her feet

Pitter patter like creamed lentils

Naan...

Delicately seasoned with fresh ginger

Chopped peppers

and mild exotic spices

The everlasting beauty of Naan

Daan delhi dahbar daan

Would you like smoking or Naan?

Delhi dabbar daan

Don't forget the Lazy Susan

Baked by slapping it quickly on the fiery sides of the tandoor

Roasted on skewers

Then barbecued

Over flaming hot coals

The everlasting presence of Naan

Would you like smoking or Naan?

Naan.....

## NEAL'S DEAL WITH MEALS

Neal feels that he's missing out on meals

From nervous hesitation for a cigarette

Now what the deal with Neal is that his taste buds squeal

He could grow old for just another cigarette

Are we dwelling on the meals or the pleasure Neal feels

Cause he smokes too many cigarettes

Or are we dwelling on the tastebuds cuz he smokes too many too many cigarettes

## NIGHTCRAWLER

For continued freshness.....refrigerate  
after opening...keep me good  
for i have....the best taste

if something deep inside starts to spoil me	(you creep you creep)
you make no sense at all in the what?	(you creep you creep)
if i ask you whats your pleasure...the music?	
like birds of a feather, i want both	(you creep you creep)
i want both	(you creep you creep)

I'm the nightcrawler everyday

I'm the nightcrawler don't come my way  
I'm the night crawler won't you take my hand?  
do you understand?  
do you understand?  
do you understand?

if the door is open...and I'm inside  
try recycling.....keep me clean  
for i have...the best taste

### Alternate lyrics:

I hope your mashed potatoes have a saucy liquid ladle

## NOT MUCH TO LOSE

Why he's still talking  
We just don't know  
We've built up resistance  
From hearing the show  
Faceless and angry  
Not meaning to upset  
A red fire's fading  
On Jupiter's sunset

Oh and when it flashes on tv  
Our minds can grasp no meaning  
People please listen  
I've something to say  
We're losing our freedom  
Its gonna be gone completely someday

## NOTHING FREAKS ME OUT

Its all part of the scene right now

## ON MY WAY

Gazing out the window of the car

Concentrating on a distant star

I'm on my way

Leaving problems far behind

I keep forgetting she's no longer mine

Yes I know that she knows I was falling...in love

She should've known I'd be leaving, I just had to go

But where would she get such an idea?

Silly girl, simple girl

I'm on my way

## PERFECT MATCH

He's too fat, he doesn't get any  
She's too rich, she doesn't need any  
He's too lean, he's a green bean  
She's too short, way too short  
She's too tall, she doesn't get any  
He's too mean, he doesn't greet any  
She's so thin, 'cept she's gotta double chin  
He's so shy, you gotta wonder why

Too rich too thin, too small too fat  
If it's not some of this then its gimme some of that  
Full moon above with a big black cat  
You never really know just where one's at

He's too slow  
She's too bold  
He's too poor  
The perfect match  
Oh what a catch!

He's too slow, he can't catch any  
She's too bold, she can't attract any  
He's so poor, he's a bore and a chore

The perfect match  
Oh what a catch!

*(repeat first verse)*

a process learned from listening to life  
i understand, i understand what you say

now you tell me that it's so incredible  
oh, unforgettable!  
and you're lying there with washed out eyes  
imaginary thoughtful mind  
i'm listening, i'm listening to everything

you look at people wondering  
how they keep on running through the park  
staring at people stereotyped on t.v. tonight  
can you imagine  
what the world of a dyke must be like?  
robert petrie married a wife

imaginary thoughtful mind  
i'm listening, i'm listening to everything

how they keep on running through the park  
staring at people stereotyped on t.v. tonight

SOMETIMES THINGS TAKE TIME, EVEN FOR DRACULA

sometimes the good things in life take time, even for Dracula  
you have to wait a little longer  
before you get a good bite  
sometimes it just takes more time, even for Dracula  
you have to wait a while longer  
before you get it right

and like a baby climbing up the stairs  
helped along by Heaven's care  
you can get there

sometimes the best things take so much time, even for Dracula  
you have to lay low forever  
stay sittin tight  
keepin both eyes open  
for when the timing's just right

and like a white tiger flying in the air  
helped along by Heaven's care  
Dracula, at least, can get there

hidin up high                    where no one can see  
hangin down low                where everything is free

staring in appreciation  
at the tasty things in life  
ready and waiting  
for another delicious bite

STAR 69

SWEET BASIL AND A HINT OF THYME

Sweet basil and a hint of thyme  
Curry powder and i know he's mine  
Jamaica ginger on a pie crust lime  
I only hope there's room for wine

Dinner's ready at a quarter to nine  
Ground cumin and the salad's fine  
Pink salt with a touch of sage  
I only know i improve with age  
Sweet basil and a hint of thyme  
Curry powder and i know he's mine, oh yeah!

I want my milk	but you didn't say please
Give me my milk	and a dinner roll please
What about the prayer?	hail mary full of grace
And about her hair?	is it all in place

Please pass my my milk	and the parmesagn cheese
What about a chair?	how does everything taste?
What'd ya do to your hair?	is it all in place

Chili pepper with a slice of lime  
A squeeze of lemon and i'm feeling fine  
Salt and pepper and its just in time  
Sweet basil and a hint of thyme  
Tarragon with a light saffron  
Won't be long til the fennel's gone  
Summer sausage and a hint of jam  
Hazel nuts and a slice of ham  
Sweet basil and a hint of thyme  
Curry powder and i know he's mine, oh yeah!

(repeat chorus)

## UNDERWATER BALLERINA

### Underwater Ballerina

I crash into the forest boughs  
I walk into the grey of dawn  
A path unseen by footing plows  
through the grass that starts to talk  
by the trees that start to talk  
this is a most unusual walk

### Coda ( as time goes by)

As time goes by and I see lines on my forehead  
our precious frail lives frighten me  
I wake up crying  
begging God

It was but yesterday  
we met in a dream  
I touched the glory of your soul  
and  
sang to you  
in your aloneness

When now we meet  
to dance  
I see your torn heart  
rip deeper  
through your tiny precious body

I treasure every breath you take  
and fall  
trembling to my knees  
reaching for your face begging God  
to let  
us build our tallest Castle  
next time we dream

## VILLA DE MARS

Villa Dr. Marz

767 South Garland's the place  
Just like Judy  
But there's no Judy  
Not a trace of her face  
Faceless individuals like the Wizard of Oz  
Except the Spooks are even chreapier at the Villa Dr. Marx

As you pulled up to the mansion  
The serpants start to grow  
There's a red chandelier when you slipped through the front door

The bitches start to bitch  
The grand piano starts to snore  
And the landlord Wolfgang is the pitbull by the door

As you lift up through the staircase to bedroom number 5  
there is a whore in number 4  
And a fag on the other side  
Those bitches keep on bitching  
As the Grand Piano keeps its snore  
and the landlord Wolfgang's barking by the door

he will bark with the rest of them  
he will bark and maybe bite  
at the Villa De Marz you're sleeping here all night

## WARD

who's the man who can fix the leak?  
ward's the man who can fix the leak!  
well who's the man with the hammer in his hand?  
ward's our man - he's a hammering ham!  
and who's the man with the golden tan?  
ward again, that handsome man!

well, how are we going to get there, what's the plan?  
ward's going to drive us in his royal sportsvan!  
what about when we get there?  
what will we do?  
listen to big ward - he knows jokes too!

wardly wardly wardly wardly who?  
wardly wardly wardly wardly wardly - that's who  
hoho heehee haha hoho who? ward!  
hoho heehee haha hoho who? ward!

WE DON'T FEED ANY

(Perfect Match)

He's too fat, he doesn't get any  
She's too rich, she doesn't need any  
He's too lean, he's a green bean  
She's too short, way too short

She's too tall, she doesn't get any  
He's too mean, he doesn't greet any  
She's so thin, 'cept she's gotta double chin  
He's so shy, you gotta wonder why

Too rich too thin, too small too fat  
If it's not some of this then its gimme some of that  
Full moon above with a big black cat  
You never really know just where one's at

He's too slow  
She's too bold  
He's too poor  
The perfect match  
Oh what a catch!

He's too slow, he can't catch any  
She's too bold, she can't attract any  
He's so poor, he's a bore and a chore

The perfect match  
Oh what a catch!

## WHAT NOBODY KNOWS

what nobody knows  
nobody knows  
as if nobody knows what they like  
some people show  
what other people don't know  
and everybody feels uptight

lots o people barkin' bitin'  
tellin' me they're all uptight  
and nobody knows what they like  
lots o people barkin' bitin'  
tellin' me they're all uptight  
and nobody knows what they like  
what do you like?  
what do you like?

## YANKEE DOODLE PARADE

Hooray!	It's the Yankee Doodle Parade
On the corner of Main	It comes every May
On Memorial Day	Under Hollywood sun
Where celebrities come	Its All American fun

Yes indeed today's the day of Yankee Doodle's Dandy Parade  
With so many stars in their motor cars  
Come and join the marching band – and the dancers too!  
Mind your step and let the girls be handy

Hooray!	Yes it's the big day
Hip hip and hooray	Come and join the Parade

Step it up and keep in time  
Soon you'll have a Valentine  
The moon in your eyes shows a love of Paradise  
And next to none there's only one Dandy Parade

That Yankee Dandy, he's the one  
Gifts of joy for everyone  
A Patriot too  
in red white and blue  
When Yankee Doodle comes to town  
People gather around  
Mind your step and let the boys be handy

### Alternate lyrics:

One potata two potata three potata pie, I'll take four and you take five  
Meet me on the corner at half past eight, Tell that Nicholas not to be late  
Alexander get around and bring up the car, Remember if they ask you we're not goin far  
One potata two potata keepin in time, So why don't you move over and let me drive  
that Yankee Doodle what cat, he stuck a feather in his hat  
that dandy dude is mighty fine, Yankee Doodle keep it in time  
One potata two potata three potata pie, One potata two potata keep it in time

## YELLOW UNIVERSE

It's the knowing that scares me  
It's the cold that aches in my arms  
and my eyes they feel the sting of yellow  
it's my mind trying to forget

it's my feet that burn on the wood  
It's my soul that seeps through my faith  
it's my heart hearing your laugh  
It's my mind trying to forget

It's the sky that isn't there it's the air  
it's the moon hidden by the filth  
It's smothered Stars crying my name  
It's the Dead flowers  
It's my mind trying to forget

It's our universe behind my fingernails  
It's my belly sucking yesterday  
it's becoming a woman alone  
It's my blood screaming your name  
it's my mind trying to forget....

## YOUR HIGH

Your high it just occurred to me  
fills mind over capacity  
soon now we'll be reclining  
lifting off with bright intensity  
and as day turns to night  
and the planets come into view  
I'll kiss you 3 times dear  
I love you

YOUR STARE IS WHY I CARE

I've asked so many damn good questions  
I might not ask a one again  
cause there's so many good good reasons...  
I'll never ask again  
so many damn good questions  
for fighting to call you mine  
I'm fighting to call you mine  
just to be my only friend

and if I turn to be one hundred  
wrinkle up to wrinkle raisin  
I'll just keep on going backwards  
cause backwards is forwards amen  
backwards is forwards amen  
backwards is forwards ahh-ah

swishy wishy fishy washy wishy washy doo  
I'm fixin up my hair-doo  
I fix it up for you
